

## Silly Pizza Song

I start by teaching students the food signs for the following: pizza, candy, bananas, cookies, bread, cereal, ice cream, crackers, apple, and cheese.

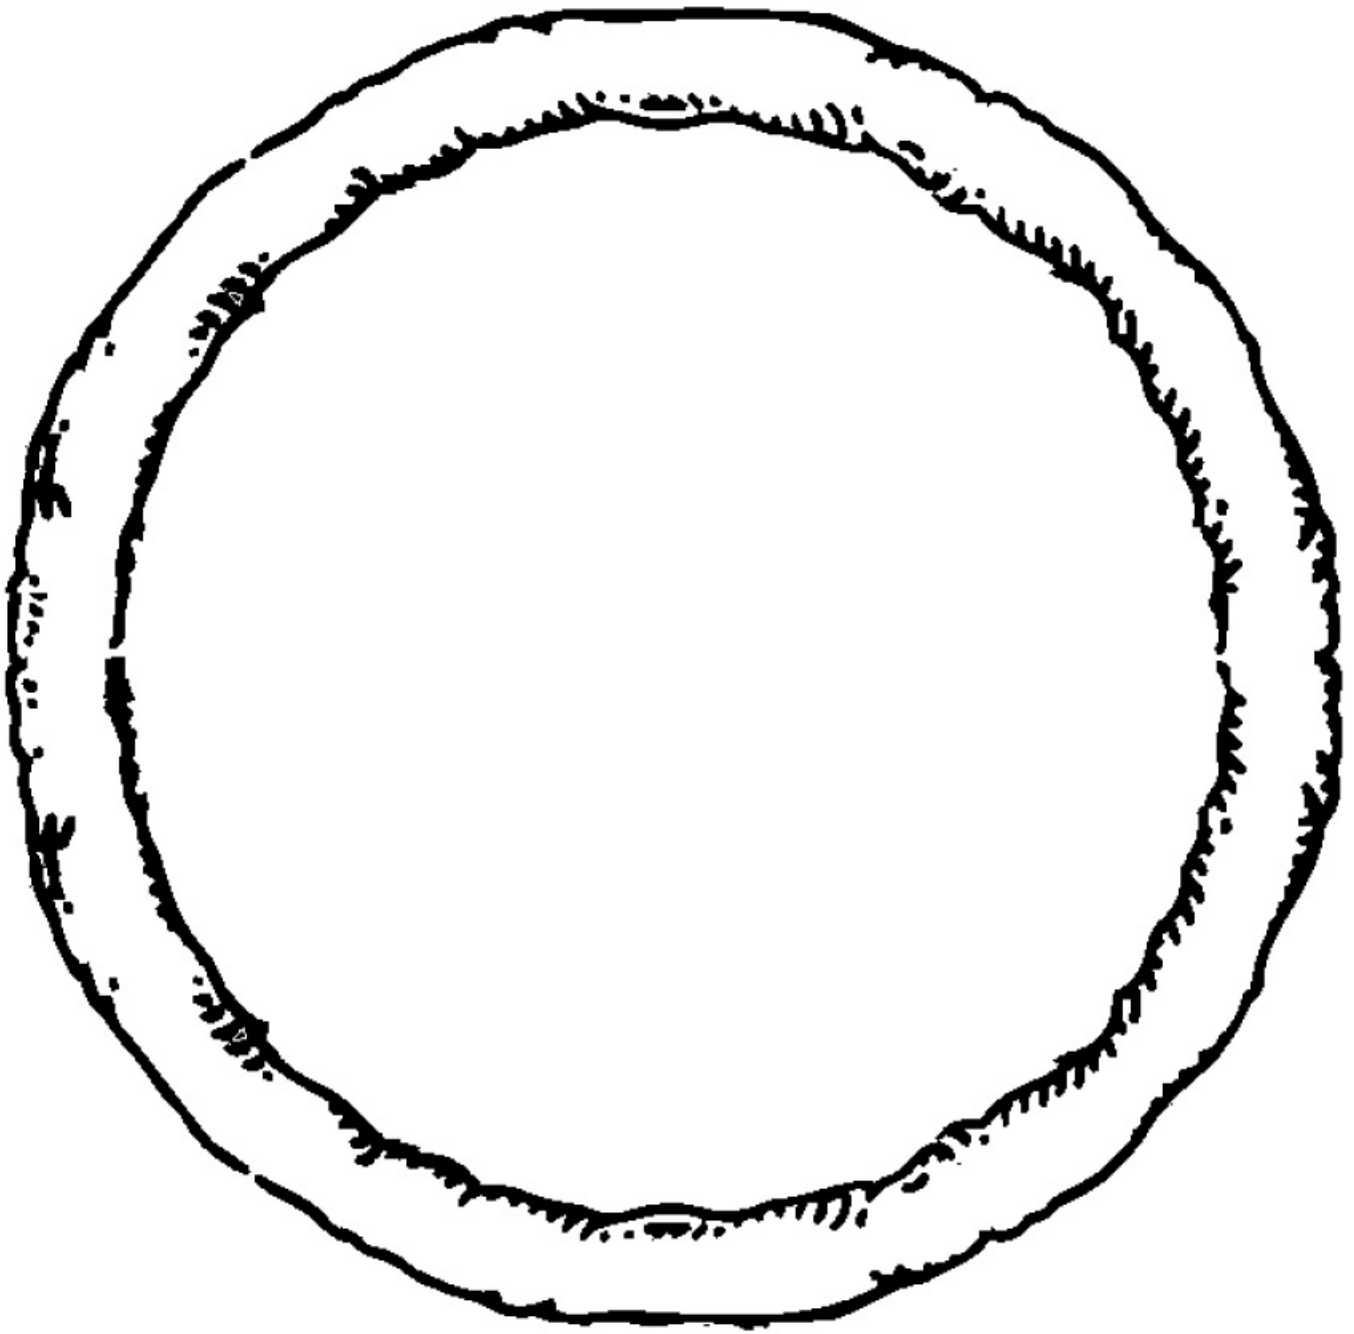

I found flash cards online by googling “bread signing time” and clicking the images tab. You can do this with each food I listed above.

Split everyone in a group of 2-3 students and have them try to figure out the sign by looking at the picture. Then you can go over it all together (if you need a video for yourself, you can always google “ASL bread”).

Then as a group go over all of the food signs together and then play the song and have the students sign **JUST** the foods.

You can play that song from [youtube.com](https://www.youtube.com) and then search “Silly pizza song.”

If you have time you can complete the next worksheet!

Make your own silly pizzas!
